

ST ANTONY'S COLLEGE

62 Woodstock Road · Oxford · OX2 6JF

Education, Purpose and Human Flourishing in Uncertain Times

Theme 1: Personhood and Society

This theme explores the dialectical relationship between mind and environment. It looks at what is meant by 'Human Flourishing' and explores amongst others such concepts as character, wellbeing, and virtue. We ask how education might be pressed into service in the development of human traits, what other support systems are needed in micro and local settings such as homes and schools, and importantly, the role of education in dismantling the factors that constrain the pathways towards human flourishing.

The following seminars will be given at **5pm on Tuesdays** in the Investcorp Lecture Theatre, St Antony's College with the exception of 9th February when it will start at **6pm**. These seminars are open to the public, and can be joined virtually on the following MS Teams link: [Click here to join the meeting](#).

Conveners: Dr David Johnson, Dr Fiona Gatty and Ms Luana Deborst

Professor Hanan Alexander, University of Haifa, Professor Tali Tal, Technion: Israel Institute of Technology, and Dr Rachel S. A. Pear, University of Haifa
