

REA invites professors, practitioners, and researchers in religious education to participate in a robust online conversation designed to sketch the breadth, depth, and diversity of our work in the field. We're seeking proposals for papers, panels, briefs/posters, and hands-on experiences that will showcase the variety of research projects, teaching methodologies and approaches, public engagements and visionary thinking that animates our collective efforts. Proposal deadline: 15 March 2026.

6-8 July
